

STAHL'S PREMIUM PRINT SUBLISTOP

Keep your printed transfers vibrant and true to their original colours with Stahls Premium Print Sublistop. Featuring a barrier layer, which prevents dye migration, making it perfect for athletic and sporting apparel - in particular sublimated fabrics. The biggest advantage of this product, is its static backing. Ideal for larger designs, such as sports letters or numbers. The static back makes weeding larger runs of transfers much faster and easier. Your go-to product for large sports numbers.

RECOMMENDED FABRICS

- Cotton/Polyester Blends
- Sublimated fabrics
- Heavily dyed polyesters

Please note: Always check fabric makeup and test press when possible.
